OBJECTIVE

Computer Science and Engineering student with hands-on experience in Python, SQL, data analysis, and machine learning. Experienced in building and evaluating ML models, performing data preprocessing, Feature Engineering, and deploying interactive ML applications.

SKILLS

- **Programming:** Python, R, SQL
- **Machine Learning & AI** : Classification, regression, feature engineering, model evaluation, Scikit-learn
- **Data Analysis :** Pandas, Numpy, Matplotlib, Seaborn, Data Cleaning, EDA
- **Database:** MySQL, PostgreSQL
- **Deployment:** Streamlit, FastAPI, Joblib
- **Cloud:** BigQuery, AWS
- **Data Visualization Tools:** Power BI(Power Query,DAX), Tableau, Excel (Pivot Table, VLOOKUP/XLOOKUP)
- **Tools:** Git, GitHub, Jupyter Notebook
- **Analytical Skills :** Data Cleaning, Data Validation, Exploratory Data Analysis, Feature Engineering, Statistical Analysis
- **Soft Skills:** Analytical Thinking, Data Storytelling, Team Collaboration, Problem Solving, Communication

PROJECTS

Forest Cover Prediction – Python| Pandas| Numpy| Extra Trees| Streamlit| FastAPI

- Developed an Extra Trees multiclass classification model using 52 terrain, wilderness-area, and soil features to predict 7 forest cover types, achieving 86.08% holdout accuracy and a 0.8591 macro F1-score
- Performed exploratory data analysis, feature selection, and model evaluation on 15,120 observations to prepare the dataset for forest cover classification.
- Built and deployed an interactive Streamlit application on Streamlit Community Cloud, integrating Google Drive model storage and model caching for public predictions.

Credit Card Fraud Detection | Python | Pandas | Random Forest | Streamlit

- Developed a Random Forest classification model to identify potentially fraudulent credit card transactions using transaction data and machine learning techniques.
- Performed data preprocessing, exploratory data analysis, and model evaluation to assess transaction patterns and fraud detection performance.
- Built an interactive Streamlit application to present fraud prediction results, making the model accessible through a user-friendly interface.

EDUCATION

Bachelor of Technology – Computer Science and Engineering
Narayana Engineering College, Nellore 2022 – 2026
CGPA: 8.5 / 10.0

CERTIFICATIONS

- Machine Learning 1 – Columbia University
- AWS Academy Graduate: Data Engineering – AWS Academy
- AI Essentials - Google

ACHIEVEMENT

- NCC Cadet of 24 Andhra Battalion (Demonstrated discipline, leadership and teamwork skills)
